CONFIRMATION

Nexans Power Accessories Germany GmbH
Ferdinand-Porsche-Str. 12
95028 HOF, GERMANY

Based on tests made acc. To IEC 61238-1 the usability of the battery-operated impact wrenches:

- TYCO Type IT-1000-023 (manufacturer: Hitachi)
- TYCO Type IT-1000-033 (manufacturer: Hitachi)
- ASKO Professional Type BTW 151 RJEX (manufacturer: Makita)
- ASKO Compact Type BTW250RFE selected (manufacturer: Makita)
- ASKO Compact Type DTW250RMJ selected (manufacturer: Makita)
- ASKO Compact Type DTW280RMJ selected (manufacturer: Makita)
- Pfisterer Type Milwaukee C18 IW (manufacturer: Milwaukee)

For the installation of shear-off head bolt connectors of the standard and customized program of the brand GPH can be generally confirmed, but depending on different conductor materials conductor constructions deviations of the test values are possible.

The worker has to make sure that the impact wrench

- has no defect
- will be properly used
- will be correctly positioned at the shear-off head bolt
- does not apply any leverage on the bolt
- is used with appropriate dies and
- is only used with sufficiently charged battery

The approval is valid until recalled.
